BEFORE

Established in 2004 by Ed R. Baney, The Remodeling Firm, LLC is a family owned and operated, full service company specializing in Kitchens & Baths. We take great pride in working closely with our clients to determine their wants and needs, while guiding them through the process of a successful remodel.

We begin our process by determining what our clients don't like about their homes and offer ideas and suggestions to help give them a vision of the possibilities. We discuss lifestyle, theme, budgeting and quality of materials. We offer several lines of cabinetry to meet all price points, as well as design services.

Our clients appreciate our attention to detail as well as the ability to coordinate the project so there's as little disruption as possible for the homeowner. This has given us the reputation as "The Contractor People Trust".
